RISK DISCLOSURE DOCUMENT

*[THIS DOCUMENT SHOULD BE READ, ACCEPTED AND SIGNED BY EACH AND EVERY PROSPECTIVE CLIENT BEFORE ENTERING INTO ANY TRADING ACTIVITIES AND SHOULD BE READ IN CONJUNCTION WITH THE BYE LAWS AND RULES OF **THE FIRM** (DUAL OPTIONS)]*

1. This brief statement of risks does not disclose all of the risks and other significant aspects of trading in binary options. In light of the risks, you should undertake such transactions only if you understand the nature of the contracts and the relationship arising there from into which you are entering and the extent of your exposure to risk. Risk of loss in trading can be substantial. You should carefully consider whether trading is appropriate for you in light of your experience, objectives, financial resources and other relevant circumstances. Trading thus requires not only the necessary knowledge and financial resources but also the financial and emotional temperament. In case of any consequences or loss in trading on Dual Options, the client agrees that he/it shall be solely responsible for such loss and Dual Options shall not be responsible for the same and it will not be open for any client to take the plea that no adequate disclosure was made or he was not explained the full risk involved in trading. The client will be solely responsible for the consequences and no contract can be rescinded on that account.

RISKS INVOLVED IN TRADING

2. Trading in binary options carry a high degree of risk. You should therefore completely understand the following statements before actually trading and also trade with caution while taking into account one's circumstances, financial resources, etc. If the prices move against you, you may lose a part of or whole margin/amount in a relatively short period of time.
3. Trading involves daily settlement of all positions. Every day the open positions are mark to market based on the closing level of the index. If the index has moved against you, you will be required to deposit the amount of loss (notional) resulting from such movement. This margin will have to be paid within a stipulated time frame, generally before commencement of trading next day.
4. If you fail to deposit the additional margin by the deadline or if an outstanding debt occurs in your account, the Clearing department may liquidate a part of or the whole position or substitute contracts. In this case, you will be liable for any losses incurred due to such Close Outs.
5. Under certain market conditions, a client may find it difficult or impossible to execute transactions. For example, this situation can occur due to factors such as illiquidity i.e. when

there are insufficient bids or offers or suspension of trading due to price limit or circuit breakers etc.

6. In order to maintain market stability, the following steps may be adopted changes in the margin, increases in the cash margin rate or others. These new measures may be applied to the existing open positions. In such conditions, you will be required to put up additional margins or reduce your positions.
7. You must ask dual options to provide full details of the contracts you plan to trade i.e. the contract specifications and the associated obligations.

Risk-reducing orders or strategies

8. The placing of certain orders (e.g., "stop-loss" orders, or "stop-limit" orders), which are intended to limit losses to certain amounts, may not be effective because market conditions may make it impossible to execute such orders. Strategies using combinations of positions may be as risky as taking simple "long" or "short" positions.

Suspension or restriction of trading and pricing relationships

9. Market conditions (e.g., illiquidity) and/or the operation of the rules of certain markets (e.g., the suspension of trading in any contract or contact month because of price limits or "circuit breakers") may increase the risk of loss due to inability to liquidate/offset positions.

Deposited cash and property

10. You should familiarize yourself with the protections accorded to the money or other property you deposited particularly in the event of a firm insolvency or bankruptcy. The extent to which you may recover your money or property may be governed by specific legislation or local rules. In case of any dispute with any other Customer or Dual Options the same shall be subject to arbitration as per the Arbitration Rules of the Country.

Commission and other charges

11. Before you begin to trade, you should obtain a clear information of all commission, fees and other charges for which you will be liable. These charges will affect your net profit (if any) or increase your loss.

Trading facilities

12. Dual Options offers only electronic trading facilities (online trading facilities), which are computer-based systems. As with all facilities and systems, they are vulnerable to temporary

disruption or failure. Your ability to recover certain losses may be subject to limits on liability imposed by the system provider and the market. Such limits may vary; you should gather yourself information from dual options for details in this respect.

13. Dual Options are not responsible for financial losses arising from failure, malfunction, interruption, disconnection or malicious actions of information, communication, electricity, electronic or other systems, which are not the result of gross negligence or willful default of the Dual Options.

Note: This document does not disclose all of the risks and other significant aspects involved in trading in the Binary Options. The client should therefore study himself/itself the procedure and risk involved in trading in Binary Options carefully before becoming involved in it.

I/We hereby acknowledge that I/We have read and understood the risk associated with trading in the Binary Options and also the contents of the above risk disclosure statement.
